Thibaut CORNILLON

Manager of the Fire Laboratory

Laurent FRAIOLI

This document may only be reproduced in the form of a complete photographic facsimile. This test report attests to the characteristics of the specimen subjected to the tests, but cannot prejudice the characteristics of similar products. It therefore does not constitute a certificate of quality in the sense of French Law No. 94-442 of 3.6.94. The specimens tested remain at the disposal of the applicant for a period of 2 months as from the date of sending of the test report, but once this period has expired they may on no account be claimed. The synthesis report written in French prevails over this present version in English.
